The PCC Library, all four campuses, is open to the public, and after graduation you can get a “Community User” card if you reside in the PCC district. Access to databases for Community Users is limited to on-site use.

**SUMMIT borrowing**

As a PCC student taking credit courses, you may request items yourself from other academic libraries in the SUMMIT consortium. The items generally arrive to a PCC campus library within five business days, and may be checked out for six weeks. They are not renewable.

**Interlibrary loan**

As a PCC student taking credit courses, you may request the Library to locate specific library items from outside the SUMMIT consortium. Interlibrary loan requests can take on average two to six weeks to accomplish, depending on the location of the item. Sometimes full text of journal articles can arrive much quicker, if the lending library has an online subscription. In general, interlibrary loan is free. But if a lending library requires a charge, you will be notified in advance.

**Use other academic libraries**

PCC credit students may visit and borrow materials from other SUMMIT libraries. Member libraries include Portland State University, University of Portland, Oregon State University, and Pacific University. Many academic libraries are also open to the public, with some restrictions on borrowing or database use.
